4-WHEEL DRUM TRUCKS

Ergonomic & Versatile Drum Trucks

The 160 Series drum trucks provide an efficient and ergonomic solution for transporting and dispensing drums with ease. Designed for safety and versatility, these drum trucks carry the full weight of the drum, eliminating the need for manual balancing. Whether used to move drums on and off pallets, transport them across various surfaces, or dispense contents, the 160 Series ensures secure and stable handling.

Key Features & Benefits

- Ergonomic, heavy-duty design for effortless drum transport and dispensing.
- Self-supporting on four wheels or stands upright for compact storage.
- Full drum weight is carried by the truck, eliminating the need for manual lifting or balancing.
- Smooth maneuverability with four 8" (20.3 cm) MORTUF polyolefin roller-bearing wheels.
- Durable forged steel toe prongs, wide and rounded to protect the drum.
- U-shaped knuckle-saving handle keeps hands protected.
- Capacity: 1,000 lbs (454 kg).
- Handles 30, 55, and 85-gallon (114, 210, or 322-liter) drums, including most rimmed steel, plastic, and fiber drums.
- Ships boxed with minor assembly required.

Model 160-SS made of type 304 stainless steel

160 SERIES

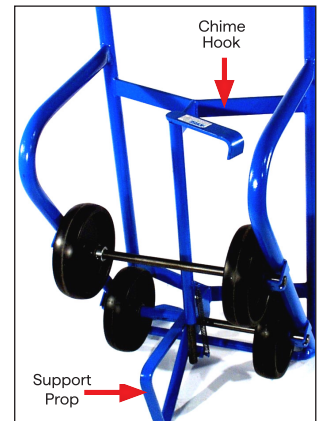

4-Wheel Drum Trucks

SPECIFICATIONS SHEET

DRUM SIZE RANGE		
	Minimum	Maximum
Diameter	14" (35.6 cm)	28" (71.1 cm)
Height	31" (78.7 cm)	41" (104.1 cm)
*Add Option 5058-P for 55-gallon rimless plastic drum, or for a smaller drum		

Enhanced Stability & Dispensing Support

- Chime Hook & Support Prop:
 - Engage the chime hook on the drum rim to assist in loading.
 - Extend the support prop to stabilize the truck in a horizontal position for controlled dispensing.
 - Push the chime hook down to extend the support prop in an upright position or raise it to retract.
 - Note: Model 160M includes a chime hook but does not have a support prop.*

Effortless Drum Handling

- Easily move drums on and off pallets by rolling them onto the pallet or using the extra-long handle for leverage.
- Dispense drum contents with ease while the frame and support prop stabilize the truck in a secure horizontal position.

Models for Various Applications

- Models with 10" (25.4 cm) pneumatic wheels mounted outside the frame are designed for traveling over rough terrain or grating.
- Model 160-WP-SS is made of Type 304 stainless steel for use in sanitary or corrosive environments.
- Model 160M adds Spark Resistant Parts for safer operation in hazardous environments.

OPTION #	DESCRIPTION	DOMESTIC SHIP WEIGHT	DOMESTIC SHIP DIMENSIONS
5058-P	Kit, Strap for rimless plastic drum or smaller drum	2 Lb. (1 kg)	L8" W7" H3" (20 x 18 x 8 cm)

Optional Strap - Kit # 5058-P

The Strap Option allows you to handle a rimless plastic drum as shown in sequence of images below, or a shorter drum such as the 30-gallon fiber drum shown at right, with any Morse 4-Wheel Drum Truck.

Secure optional strap around a rimless drum.

Strap assists in pulling your drum over onto the drum truck.
