

## CERTIFICATE OF COMPLIANCE

### Morse 185S-HD-FP Drum Handler

The Morse model 185S-HD-FP Drum Dandler is manufactured by Morse Mfg. Co., Inc. in Syracuse, NY 13208, in accordance with Morse Manufacturing's design and fabricating criteria.

The capacity is 1500 Lb. (680 kg) for a full Drum.

The capacity is 800 (363 kg) for a half-full drum.

The Morse 185S-HD-FP Drum Handler is a "Group 1 – Structural and Mechanical" Below-the-Hook Lifting Device which is covered by the American National Standard ASME B30.20.

The 185S-HD-FP complies with this standard as it applies to the following:

- Rated load markings and unit identification.
- Minimum design safety factor of 3, based on yield strength, for load bearing structural components.
- Welding is performed by certified welders who have passed the ANSI/AWS D14.1 welding qualification test.
- Load tested to 125% of rated capacity.
