GEK-305 SERIES

SPECIFICATIONS SHEET

CAN TUMBLER ENCLOSURE KITS

*Enclosures with Safety Interlock.
Comply with OSHA, CSA, CE, etc.*

Enclosures for Morse Can Tumblers have safety interlock to automatically shut off the machine when gate is opened.

To operate, open the enclosure gate, secure can in holder. Then close gate to begin tumbling operation.

Install all Morse Drum Rotators in accordance with local requirements for enclosure and safety interlock. Interlock switch automatically turns drum roller off when enclosure door is opened. Power connections and motor controls must comply with applicable codes.

For OSHA compliance in USA, see OSHA subpart O.1910.212(a)(4) "Barrels, containers, and drums. Revolving drums, barrels, and containers shall be guarded by an enclosure which is interlocked with the drive mechanism, so that the barrel, drum, or container cannot revolve unless the guard enclosure is in place.

Kits for Customer to Install

Enclosure Kit Model Number	Fits Model Number (Sold Separately)	Gate Switch
GEK-2-305-1	2-305-1	AC
GEK-2-305-1-230	2-305-1-230	AC
GEK-2-305-3	2-305-3	AC
GEK-2-305-575	2-305-575	AC
GEK-2-305-A	2-305-A	Air switch
GEK-2-305-E1	2-305-E1	AC explosion proof *
