

# 92 SERIES

## SPECIFICATIONS SHEET

### BELOW-HOOK DRUM LIFTERS

Lift and Move a Drum With Your Hoist

## Lift a Rimmed Steel, Plastic or Fiber Drum with Your Crane

- Each Model Works with a Range of Drum Sizes (See chart below)
- Capacity: 1000 Lb. (454 kg)

Self adjusting tong-like action automatically grips various common types of closed drums. Slim-profile grippers allow you to lower a drum into an overpack or salvage drum - place 30's into 55's, or 55's into 85's. Handle steel drum, a rimmed plastic drum, or a lever-lock fiber drum.

Drum lid MUST be on and properly secured. **NOTE:** Rim must be within 1" of the top of drum to be lifted. Do not exceed drum manufacturer's packing limit.

Each Morse below-hook drum handler is load tested at the factory at 125% of rated capacity as per American National Standard ASME B30.20, and a load test certificate is supplied.

Engages Under Top Rim  
Place Drum into Salvage Drum

MODEL	DESCRIPTION	FOR DIAMETER RANGE
92	30 to 85 gallon drum lifter	18" to 26" (45.7 to 66 cm)
