CERTIFICATE OF COMPLIANCE

Morse 42-G Drum Lifter

- The Morse model 42-G drum lifter is manufactured by Morse Mfg. Co., Inc. in Syracuse, NY 13208, in accordance with Morse Manufacturing's design and fabricating criteria.
- The Morse model 42-G drum lifter is a *SLING* covered by the American National Standard ASME B30.9. The Morse model 42-G complies with this standard as it applies to *markings, design safety factor, and initial inspection.*
- Welding is performed by certified welders who have passed the ANSI/AWS D14.1 welding qualification test.
- The Morse model 42-G is designed to handle steel drums from 55 gallon to 85 gallon with a suitable top and bottom rim. Weight of drum contents must not exceed the drum manufacturer's packing limit. Drum lid must be properly secured.
- The Morse model 42-G has a maximum capacity rating of 2000 Lb. and is designed to lift drums of size and type noted above. *DO NOT* exceed these ratings. Exceeding these ratings or handling drums other than those mentioned above is unsafe and could result in equipment damage, excessive wear or awkward handling.

A handwritten signature in black ink, appearing to read "Nathan R. Andrews". The signature is fluid and cursive, with a long horizontal flourish extending to the right.
