

## CERTIFICATE OF COMPLIANCE

### Morse 195 Drum Handlers

The Morse model 195 Series drum handlers are manufactured by Morse Mfg. Co., Inc. in Syracuse, NY 13208, in accordance with Morse Manufacturing's design and fabricating criteria.

The capacity is 1500 Lb. (680 kg) for a full drum.

The Morse 195 Series drum handler is a "Group 1 – Structural and Mechanical" Below-the Hook Lifting Device which is covered by the American National Standard ASME B30.20. The 195 complies with this standard as it applies to the following:

- Rated load markings and unit identification.
- Minimum design safety factor of 3, based on yield strength, for load bearing structural components.
- Welding is performed by certified welders who have passed the ANSI/AWS D14.1 welding qualification test.
- Load tested to 125% of rated capacity.
